When Potential Needs Substance

100% Solution Towards Project & Industry Material Management.

Visit us at www.dms.in

PROFILE

Since its inception in 1969, Delhi Mill Stores has emerged as a major call for Projects & Industry Material Management. In its short but intensive existence, it has been able to create an enviable niche towards building insight of specific client requirement and meeting them on time through efficiently procuring material at competitive prices and delivering them at the quickest.

Having existed for almost five decades as a major icon for Project & Industry Material Management, DMS Group does not only promise 100% solution towards Project & Industry dilemmas but also provide reasonable credit to its clients who wish to build long term business bond.

VISION

"To contribute towards the infra structural development of the Nation."

Mission

"To consistently and speedily supply quality materials of infra structural and industrial nature, for every Project and Industry which has the endeavor towards the development of the country and thereby act as a catalyst in the overall growth of the economy."

Key component of our working culture are :

- **Expertise** towards aligning the client's requirement and the right material.
- **Specialized Team of knowledge workers** that focuses towards efficiently procuring the material of right quality and in right quantity.
- **Bargaining Power** that fetches us material at the most competitive prices.
- **Efficient Supply Chain** which enables us to make on-time deliveries.
